# Contents

Foreword . . . . .	xvii
About the Authors . . . . .	xxi
About the Technical Reviewer . . . . .	xxiii
Acknowledgments . . . . .	xxv
Introduction . . . . .	xxix
<b>CHAPTER 1 Backup and Recovery 101 . . . . .</b>	<b>1</b>
Types of Database Failures . . . . .	2
Oracle Backup and Recovery Concepts . . . . .	4
Backup Types . . . . .	9
Recovery Types . . . . .	11
RMAN Architecture . . . . .	15
Backup and Recovery Best Practices . . . . .	17
<b>CHAPTER 2 Jump-Starting RMAN . . . . .</b>	<b>23</b>
2-1. Connecting to Your Database . . . . .	23
2-2. Starting and Stopping Your Database . . . . .	27
2-3. Toggling Archivelog Mode . . . . .	29
2-4. Connecting to RMAN . . . . .	31
2-5. Backing Up Your Database . . . . .	33
2-6. Simulating a Failure . . . . .	34
2-7. Restoring and Recovering Your Database . . . . .	35
<b>CHAPTER 3 Using the Flash Recovery Area . . . . .</b>	<b>39</b>
3-1. Creating the Flash Recovery Area . . . . .	40
3-2. Writing Regular RMAN Backups to the FRA . . . . .	41
3-3. Freeing FRA Space in an Emergency . . . . .	44
3-4. Checking Space Usage in the FRA . . . . .	47
3-5. Expanding or Shrinking the FRA . . . . .	50
3-6. Configuring Archived Redo Logs to Go to FRA . . . . .	53
3-7. Using the Same FRA for Two Databases with the Same Name . . . . .	55
3-8. Placing a Control File in the FRA . . . . .	60
3-9. Placing Online Redo Log Files in FRA . . . . .	63
3-10. Sending Image Copies to the FRA . . . . .	70
3-11. Deleting Backup Sets from the FRA . . . . .	71

3-12. Deleting Archived Redo Logs from the FRA	73
3-13. Reinstating a Damaged Datafile from an Image Copy	74
3-14. Switching Back from an Image Copy	79
3-15. Backing Up the FRA to Tape	82
3-16. Sizing the Flash Recovery Area	83
<b>CHAPTER 4 Using RMAN</b>	<b>89</b>
4-1. Starting the RMAN Client	90
4-2. Issuing RMAN Commands	91
4-3. Saving RMAN Output to a Text File	92
4-4. Logging Command-Line RMAN Output	93
4-5. Connecting to a Target Database from the RMAN Prompt	94
4-6. Connecting to a Target Database from the Operating System Command Line	96
4-7. Executing Operating System Commands from Within RMAN	96
4-8. Scripting RMAN	97
4-9. Executing RMAN Command Files	99
4-10. Creating Dynamic Command Files	101
4-11. Connecting to an Auxiliary Database	102
4-12. Executing Multiple RMAN Commands As a Single Unit	103
4-13. Issuing SQL Statements from the RMAN Client	104
4-14. Starting and Shutting Down a Database with RMAN	106
4-15. Checking the Syntax of RMAN Commands	107
4-16. Hiding Passwords When Connecting to RMAN	109
4-17. Identifying RMAN Server Sessions	110
4-18. Dropping a Database using the RMAN Client	112
<b>CHAPTER 5 Configuring the RMAN Environment</b>	<b>113</b>
5-1. Showing RMAN Configuration Settings	113
5-2. Configuring RMAN	116
5-3. Restoring Default Parameter Settings	117
5-4. Enabling and Disabling Automatic Control File Backups	118
5-5. Specifying the Autobackup Control File Directory and Filename	120
5-6. Specifying the Snapshot Control Filename and Location	121
5-7. Specifying the Retention Period for RMAN History	122
5-8. Configuring the Default Device Type	124
5-9. Configuring the Default Backup Type	125
5-10. Making Compressed Backup Sets the Default	126
5-11. Configuring Multiple Backup Copies	127
5-12. Skipping Previously Backed Up Files	129
5-13. Specifying Backup Piece Filenames	133
5-14. Generating Filenames for Image Copies	134

5-15. Tagging RMAN Backups	135
5-16. Configuring Automatic Channels	136
5-17. Manually Allocating RMAN Channels	140
5-18. Allocating an RMAN Maintenance Channel	142
5-19. Creating a Backup Retention Policy	143
5-20. Configuring an Archived Redo Log Deletion Policy	145
5-21. Limiting the Size of Individual Backup Pieces	146
5-22. Configuring the Maximum Size of Backup Sets	146
<b>CHAPTER 6 Using the Recovery Catalog</b>	<b>149</b>
6-1. Creating the Recovery Catalog	151
6-2. Granting Restricted Access	153
6-3. Connecting to the Catalog from the Command Line	157
6-4. Connecting to the Catalog from the RMAN Prompt	159
6-5. Registering Target Databases	159
6-6. Unregistering a Database	161
6-7. Cataloging Older Files	162
6-8. Updating the Recovery Catalog	164
6-9. Dropping the Recovery Catalog	166
6-10. Merging Recovery Catalogs	167
6-11. Moving the Recovery Catalog to Another Database	170
6-12. Creating a High-Availability Recovery Catalog	170
6-13. Viewing Backup Information	171
6-14. Uncataloging RMAN Records	172
6-15. Using a Release 11.x Client with Older Catalogs	173
<b>CHAPTER 7 Making Backups with RMAN</b>	<b>177</b>
Backup Sets and Image Copies	177
RMAN Backup Modes	178
Types of Files That RMAN Can Back Up	179
RMAN Backup Destinations	180
7-1. Specifying Backup Options	180
7-2. Backing Up the Control File	183
7-3. Backing Up the Server Parameter File	185
7-4. Backing Up Datafiles	185
7-5. Backing Up Tablespaces	187
7-6. Making a Whole-Database Backup	189
7-7. Backing Up Archived Redo Logs	190
7-8. Backing Up Everything	191
7-9. Backing Up Flash Recovery Files	194
7-10. Performing Incremental Backups	195
7-11. Reducing Incremental Backup Time	198

7-12. Creating Multiple Backup Sets	200
7-13. Making Copies of Backup Sets	202
7-14. Making Copies of Image Copy Backups	203
7-15. Making Tape Copies of Disk-Based Image Copies	204
7-16. Excluding a Tablespace from a Backup	205
7-17. Skipping Read-Only, Offline, or Inaccessible Files	206
7-18. Encrypting RMAN Backups	207
7-19. Making a Compressed Backup	210
7-20. Parallelizing Backups	210
7-21. Making Faster Backups of Large Files	212
7-22. Specifying Backup Windows	214
7-23. Reusing RMAN Backup Files	216
7-24. Retaining Backups for a Long Time	216
7-25. Backing Up Only Those Files Previously Not Backed Up	218
7-26. Restarting Backups After a Crash	219
7-27. Updating Image Copies	221

## CHAPTER 8 Maintaining RMAN Backups and the Repository . . . . . 225

8-1. Adding User-Made Backups to the Repository	226
8-2. Finding Datafiles and Archivelogs That Need a Backup	227
8-3. Finding Datafiles Affected by Unrecoverable Operations	229
8-4. Identifying Obsolete Backups	230
8-5. Displaying Information About Database Files	232
8-6. Listing RMAN Backups	233
8-7. Listing Expired Backups	236
8-8. Listing Only Recoverable Backups and Copies	237
8-9. Listing Restore Points	237
8-10. Listing Database Incarnations	238
8-11. Updating the RMAN Repository After Manually Deleting Backups	239
8-12. Synchronizing the Repository with the Actual Backups	240
8-13. Deleting Backups	243
8-14. Deleting Archived Redo Logs	246
8-15. Deleting Obsolete RMAN Backups	248
8-16. Changing the Status of an RMAN Backup Record	249
8-17. Changing the Status of Archival Backups	250
8-18. Testing the Integrity of an RMAN Backup	251
8-19. Validating Datafiles, Backup Sets, and Data Blocks	252

## CHAPTER 9 Scripting RMAN . . . . . 257

Approaches to Scripting	257
9-1. Developing a Unix Shell Script for RMAN	259
9-2. Scheduling a Unix Shell File	265

9-3. Developing a Windows Batch File to Run RMAN .....	267
9-4. Scheduling a Script in Windows via the GUI .....	272
9-5. Changing the Schedule of a Batch Job in the Task Scheduler .....	275
9-6. Scheduling in Windows from the Command Line .....	276
9-7. Creating Local-Stored Scripts .....	277
9-8. Creating a Global-Stored Script .....	280
9-9. Updating Stored Scripts .....	281
9-10. Commenting on Stored Scripts .....	282
9-11. Displaying Stored Scripts .....	283
9-12. Listing Stored Scripts .....	284
9-13. Dropping Stored Scripts .....	285
9-14. Executing a Global Script When a Local Script of the Same Name Exists .....	286
9-15. Converting Stored Scripts to Files .....	287
9-16. Creating or Replacing a Stored Script from a File .....	287
9-17. Passing Parameters to Stored Scripts .....	288
9-18. Creating a Parameterized Command File Script .....	291
<b>CHAPTER 10 Restoring the Control File .....</b>	<b>295</b>
10-1. Restoring Control File Using Flash Recovery Area .....	296
10-2. Restoring Control File Using Recovery Catalog .....	298
10-3. Determining the Database Identifier .....	300
10-4. Restoring Control File with No Flash Recovery Area or Recovery Catalog .....	303
10-5. Restoring Control File to Nondefault Location .....	307
10-6. Restoring Lost Copy of Multiplexed Control File .....	308
10-7. Re-creating the Control File .....	310
<b>CHAPTER 11 Performing Complete Recovery .....</b>	<b>313</b>
Background .....	313
If You're Still Awake... ..	315
11-1. Determining How to Restore and Recover .....	318
11-2. Previewing Backups Needed for Restore .....	321
11-3. Verifying Integrity of Backups .....	323
11-4. Testing Media Recovery .....	326
11-5. Performing Database-Level Recovery .....	327
11-6. Performing Tablespace-Level Recovery .....	329
11-7. Performing Datafile-Level Recovery .....	330
11-8. Restoring Datafiles to Nondefault Locations .....	332
11-9. Performing Block-Level Recovery .....	334
11-10. Recovering Read-Only Tablespaces .....	337
11-11. Restoring Temporary Tablespaces .....	337

11-12. Forcing RMAN to Restore a File	338
11-13. Restoring from an Older Backup	339
11-14. Recovering Through Resetlogs	342
11-15. Restoring the Spfile	343
11-16. Restoring Archived Redo Log Files	345
11-17. Recovering Datafiles Not Backed Up	347
11-18. Deleting Archived Redo Log Files During Recovery	349
11-19. Restoring from Uncataloged Backup Pieces in Oracle Database 10g and Newer	350
11-20. Restoring from Uncataloged Backup Pieces in Oracle9i Database and Older	351
<b>CHAPTER 12 Performing Incomplete Recovery</b>	<b>359</b>
Background	360
12-1. Determining Type of Incomplete Recovery	362
12-2. Performing Time-Based Recovery	363
12-3. Performing Log Sequence–Based Recovery	364
12-4. Performing Cancel-Based Recovery	366
12-5. Using LogMiner to Find an SCN	368
12-6. Performing Change/SCN-Based Recovery	370
12-7. Recovering to a Restore Point	371
12-8. Restoring a Noarchivelog Mode Database	373
12-9. Recovering to a Previous Incarnation	374
12-10. Performing Tablespace Point-in-Time Recovery	377
12-11. Recovering a Subset of Datafiles	381
12-12. Troubleshooting Incomplete Recovery	382
<b>CHAPTER 13 Performing Flashback Recovery</b>	<b>385</b>
Introducing Flashback	385
13-1. Checking the Flashback Status of a Database	387
13-2. Enabling Flashback on a Database	387
13-3. Disabling Flashback on a Database	390
13-4. Flashing Back a Database from RMAN	390
13-5. Flashing Back a Database from SQL	397
13-6. Finding Out How Far Back into the Past You Can Flash Back	400
13-7. Estimating the Amount of Flashback Logs Generated at Various Times	402
13-8. Estimating the Space Occupied by Flashback Logs in the Flash Recovery Area	403
13-9. Creating Normal Restore Points	404
13-10. Creating Guaranteed Restore Points	405
13-11. Listing Restore Points	406

13-12. Dropping Restore Points	407
13-13. Recovering a Dropped Table	407
13-14. Undropping a Table When Another Exists with the Same Name	409
13-15. Undropping a Specific Table from Two Dropped Tables with the Same Name	411
13-16. Checking the Contents of the Recycle Bin	412
13-17. Restoring Dependent Objects of an Undropped Table	414
13-18. Turning Off the Recycle Bin	417
13-19. Clearing the Recycle Bin	418
13-20. Querying the History of a Table Row (Flashback Query)	420
13-21. Flashing Back a Specific Table	422
<b>CHAPTER 14 Handling Online Redo Log Failures</b>	<b>427</b>
How Redo Logs Work	427
14-1. Determining How to Restore	430
14-2. Restoring After Losing One Member of the Multiplexed Group	433
14-3. Recovering After Loss of All Members of the INACTIVE Redo Log Group	436
14-4. Recovering After Loss of All Members of the ACTIVE Redo Log Group	439
14-5. Recovering After Loss of All Members of the CURRENT Redo Log Group	441
<b>CHAPTER 15 Duplicating Databases and Transporting Data</b>	<b>443</b>
15-1. Renaming Files in a Duplicate Database	444
15-2. Creating a Duplicate Database on the Same Host	450
15-3. Duplicating a Database Without Any RMAN Backups	456
15-4. Creating a Duplicate Database on a Remote Host with the Same File Structure	461
15-5. Duplicating a Database with Several Directories	464
15-6. Creating a Standby Database on a New Host	465
15-7. Duplicating a Database to a Past Point in Time	468
15-8. Skipping Tablespaces During Database Duplication	469
15-9. Duplicating a Database with a Specific Backup Tag	470
15-10. Resynchronizing a Duplicate Database	471
15-11. Transporting Tablespaces on the Same OS Platform	472
15-12. Transporting Tablespaces Across Different Operating System Platforms	477
15-13. Transporting an Entire Database to a Different Platform	480
15-14. Transporting a Database by Converting Datafiles on the Target Platform	485

<b>CHAPTER 16</b>	<b>Tuning RMAN</b> .....	491
	16-1. Identifying RMAN Processes .....	493
	16-2. Measuring Backup Performance .....	494
	16-3. Monitoring RMAN Job Progress .....	498
	16-4. Identifying I/O Bottlenecks .....	500
	16-5. Improving Tape I/O Performance .....	504
	16-6. Maximizing Throughput to Backup Device .....	505
	16-7. Setting Large Pool Memory Size .....	507
	16-8. Tuning Media Recovery .....	508
	16-9. Tuning Crash Recovery .....	509
	16-10. Slowing RMAN Down .....	512
	16-11. Improving Performance Through Parallelism .....	514
	16-12. Improving Performance Using Incremental Features .....	515
<b>CHAPTER 17</b>	<b>Troubleshooting RMAN</b> .....	517
	17-1. Determining Where to Start .....	517
	17-2. Resolving Connection Permission Issues .....	519
	17-3. Handling Disk Space Issues .....	521
	17-4. Dealing with the RMAN-06059 Error .....	523
	17-5. Terminating RMAN Processes .....	525
	17-6. Diagnosing NLS Character Set Issues .....	527
	17-7. Logging RMAN Output .....	528
	17-8. Viewing RMAN Command History .....	530
	17-9. Enabling RMAN's Debug Output .....	532
	17-10. Enabling Granular Time Reporting .....	534
	17-11. Working with Oracle Support .....	536
	17-12. Resolving RMAN Compatibility Issues .....	536
	17-13. Dealing with an ORA-19511 Error .....	537
	17-14. Dealing with an ORA-27211 Error .....	539
	17-15. Dealing with an ORA-04031 Error .....	540
	17-16. Managing Files in an ASM Environment .....	541
<b>CHAPTER 18</b>	<b>Using a Media Management Layer</b> .....	545
	Using Oracle Secure Backup .....	546
	18-1. Configuring RMAN Access to the Oracle Secure Backup sbt Library ..	548
	18-2. Managing Authorized OSB Accounts .....	549
	18-3. Creating OSB Media Families for RMAN Backups .....	551
	18-4. Creating an OSB Database Backup Storage Selector .....	552
	18-5. Configuring OSB Parameters in RMAN .....	553
	18-6. Backing Up Using Oracle Secure Backup .....	555
	18-7. Restoring Using Oracle Secure Backup .....	556

18-8. Accessing RMAN Backup Data in Oracle Secure Backup . . . . .	557
Using Veritas NetBackup . . . . .	558
18-9. Installing the NetBackup Agent for Oracle. . . . .	558
18-10. Maintaining Policies for the RMAN Backups . . . . .	560
18-11. Scheduling NetBackup RMAN Jobs . . . . .	562
18-12. Defining Client Databases in NetBackup. . . . .	562
18-13. Checking for NetBackup Files on Tape . . . . .	563
18-14. Configuring NetBackup Parameters in RMAN . . . . .	565
18-15. Backing Up Using NetBackup . . . . .	566
18-16. Restoring Using NetBackup . . . . .	567
Using EMC NetWorker . . . . .	569
18-17. Configuring EMC NetWorker . . . . .	570
18-18. Installing EMC NetWorker Module for Oracle . . . . .	572
18-19. Backing Up Using the EMC NetWorker Module for Oracle . . . . .	574
18-20. Restoring Using the EMC NetWorker Module for Oracle . . . . .	577
18-21. Uninstalling the EMC NetWorker Module for Oracle . . . . .	578
18-22. Verifying the MML Installation . . . . .	579

## CHAPTER 19 Performing Backup and Recovery with Enterprise Manager . . . . . 583

19-1. Getting Started with RMAN and Enterprise Manager . . . . .	583
19-2. Setting Up a Credentialed OS User . . . . .	587
19-3. Creating a Backup . . . . .	588
19-4. Restoring and Recovering . . . . .	593
19-5. Viewing Backup Reports . . . . .	598
19-6. Performing Routine RMAN Maintenance Tasks . . . . .	599
19-7. Configuring a Recovery Catalog . . . . .	600
19-8. Configuring Instance Recovery . . . . .	602
19-9. Configuring the Flash Recovery Area . . . . .	602
19-10. Configuring Restore Points . . . . .	603
19-11. Running Custom RMAN Scripts . . . . .	604
19-12. Configuring Backup Settings . . . . .	608
19-13. Configuring Backup Policies . . . . .	609

## CHAPTER 20 Using the Data Recovery Advisor . . . . . 611

20-1. Listing Failures . . . . .	612
20-2. Getting Advice . . . . .	614
20-3. Repairing Failures . . . . .	615
20-4. Using the Data Recovery Advisor Through Enterprise Manager . . . . .	617
20-5. Changing Failure Status . . . . .	621

<b>CHAPTER 21 Using RMAN on Windows</b> .....	623
Oracle on Windows .....	623
Oracle Architecture on Windows .....	623
Services .....	625
Threads, Not Processes .....	628
Oracle Home and SID .....	631
Oracle Groups .....	632
Location of Oracle Binaries .....	635
Managing Oracle Through the Management Console .....	636
Killing the Threads .....	639
Copying Files .....	640
RMAN Recipes for Windows .....	640
21-1. Connecting As sysdba Using OS Authentication .....	640
21-2. Simulating a Failure .....	641
21-3. Creating a Flash Recovery Area .....	641
21-4. Placing Datafiles, Control Files, and Online and Archived Redo Log Files in the FRA .....	641
21-5. Switching Back from Image Copies .....	641
21-6. Using the Flash Recovery Area .....	641
21-7. Developing a Windows Batch File .....	642
21-8. Scheduling Windows Jobs .....	642
21-9. Transporting Tablespaces to/from Windows .....	642
